

Detroit EM News

An "Educational" Social Enterprise
(Est. 2010)

Detroit EM News, L3C LLC, is a mission-driven organization recognized as an L3C under the amended LLC status H.R. 1445 in the State of Michigan, in compliance with IRS Code 170c and operating under similar guidelines as a 501c(3).

Established in 2007, Detroit Entertainers & Musicians News stands as one of the nation's pioneering online (e-zine) and print publications. It functions as a platform dedicated to supporting the educational and charitable goals of foundations, nonprofits, and philanthropic organizations.

Our programs inspire youth and young adults to participate as professionals, enabling them to produce work that earns hourly wages or scholarships. Operating as a membership-based organization, we utilize a three-tier structure to achieve our goals. These goals focus on promoting transparency awareness in schools, homes, and workplaces through the guidance of our mentors, who share both procedural, theoretical and practical knowledge, along with interpersonal skills across diverse fields such as digital communications, publishing technologies, and the performing arts.

What We Do:

We highlight the talents of post-secondary students by creating and sharing positive, impactful online content that is recognized for its significance to honor or promote positive news.
